**\*\*\*PLEASE BE SURE THAT YOUR SWIMMING POOL\*\*\***

**IS FILLED TO THE OPERATING LEVEL AND THE POWER SUPPLY FOR YOUR POOL EQUIPMENT IS ON OR ACCESSIBLE BEFORE WE ARRIVE TO OPEN YOUR SWIMMING POOL, IF WE NEED TO MAKE A RETURN TRIP TO START THE EQUIPMENT THERE WILL BE AN ADDITIONAL CHARGE OF \$150.00**

## **ADDITIONAL SERVICES**

The following services and products may be added to your opening service. Please note that these prices are good only if you schedule the work to be done at the time of your pool opening. Otherwise, there will be an additional \$120 added to these prices for a separate service call. Please check the box for any additional service or product you would like to receive the day of your scheduled pool opening.

- Pool Pump "Tune Up" - \$95.00 (labor and material)

This service includes cleaning the impeller and replacing all seals and gaskets in your pool pump to insure proper, leak free operation and prolong the life of your pump.

- Filter Sand Change w/ Zeo Sand(up to 300 pounds) - \$300.00 plus sand @\$23.99/25lb bag

This service includes removing the valve from your sand filter, removal and disposal of your old filter sand, and adding new, carefully replacing the stand pipe and valve assembly and putting your equipment into operation to insure proper function.

- Salt Cell Cleaning - \$60.00

This service includes removing, inspecting, and cleaning your salt chlorine generator cell with a cell cleaning solution to remove calcification and scaling. It is recommended this be done at the beginning of every pool season to ensure optimal performance. Also, remember that salt cells are only good for approximately 3 years and do need to be replaced. If you think you might be ready please call us with the make and model number from your salt chlorine generator so we can quote you on the new part.

- Installation/Replacement of sacrificial anode for pools w/ salt chlorine generators - \$165.00

This service includes installing a sacrificial zinc anode at the pool equipment to deter the salt in the water from corroding metals in you pool pump, filter, heater, and other equipment, a must have for pools using salt chlorine generators.

We can also deliver other products and chemicals the day of your pool opening, please put the quantity of each that you would like us to deliver that day.

## POOL OPENING SERVICES & HOME OWNER RESPONSIBILITIES

### Tarp & Safety Cover Openings Include:

1. Aqua Paradise Pools & Spas will clean debris from pool cover. All leaves and debris will be piled next to the pool or in a container if supplied by the homeowner.
2. Remove pool cover, fold, and leave near the pool for the homeowner to put away.
3. Fully prepare pool for operation – remove plugs, install jets, replace rails, reassemble filter, pump and other equipment as needed.
4. Add opening chemicals (liquid shock and algaecide)
5. Start up equipment, if the pool has enough water\*
6. Check pool and equipment for proper operation and quote for any needed repairs.

### Economy Openings Include:

1. Homeowner cleans and removes and stores their own pool cover.
2. Aqua Paradise Pools & Spas will fully prepare pool for operation – remove plugs, install jets, replace rails, reassemble filter, pump, and other equipment as needed.
3. Add opening chemicals (liquid shock and algaecide)
4. Start up equipment, if the pool has enough water\*
5. Check pool and equipment for proper operation and quote for any needed repairs.

### Above Ground Pool Openings Include:

1. Aqua Paradise Pools & Spas will remove as much debris from the pool cover as possible and pile it next to the pool or in a container if one is provided.
2. Remove pool cover, fold, and leave near the pool for homeowner to put away.
3. Fully prepare pool for operation – remove plugs, install jets, reassemble skimmers, filter and pump.
4. Add opening chemicals (liquid shock and algaecide)
5. Start up equipment, if the pool has enough water\*
6. Check pool and equipment for proper operation and quote any needed repairs.

**\*In the event your swimming pool is not filled to operating level at the time of your opening, Aqua Paradise Pools and Spas does not schedule a return visit to start and check your equipment. If you need Aqua Paradise Pools & Spas to return for this service there will be an additional trip charge of \$150.00**

### HOMEOWNER RESPONSIBILITIES INCLUDE:

1. Placing all necessary pool parts such as pump basket(s), plugs, jet nozzles, skimmer baskets, handrails, filter powder (if used) near pool before the crew arrives.
2. Ensure the pool power supply is on
3. Ensure the outside water supply is on and garden hose available
4. Filling pool to normal operating level prior to your pool opening day
5. Start up pool if pool is not full at time of opening
6. Cleaning of pool itself, pool filter and any other such items such as solar covers, etc.
7. Installation of accessories such as solar cover and/or reel, fountains, etc.
8. All chemical testing and balancing of pool water

By checking this box, I acknowledge that I have read, understand, and agree to the above outlined Homeowner Responsibilities.

Aqua Paradise Pools & Spas will add the initial dose of shock and algaecide, but a proper water test for balancing cannot be obtained until the water has been circulating for at least 24 hours. **Please bring a water sample to our showroom for an accurate, professional analysis and consultation of balancing chemicals needed.**

Aqua Paradise Pools & Spas does not clean or vacuum pools at opening. Care will be taken to get as little debris into the pool during cover removal as possible, but some debris is unavoidable and we do not vacuum it out. Once the pool clears after a few days, you should be able to clean the filter and vacuum the pool.
